

# Deckweb

## Reinforcement for liquid waterproofing

### DESCRIPTION

Deckweb is a polyester non-woven felt reinforcement with glass filament for greater durability. It is designed to be used as an embedding in liquid waterproof coatings for crack bridging and also in situations where cracks in the substrate can be formed on a later stage. Deckweb ensures maintenance of even thickness of liquid waterproofing coating at critical areas like coving junctions and pipe penetrations.

### USES

- Construction joint treatments
- Treatment of dynamic cracks
- At corners and pipe penetrations

### FEATURES

- High resistant to tear
- Polyester based: high durability & flexibility
- High stability during application
- Easy to install
- Available in white and green colours
- Available in varied gauges of 40 gsm, 50 gsm, 60 gsm and 70 gsm

### APPLICATION INSTRUCTIONS

#### Substrate Preparation

The contact surface must be free from sharp edges and protrusions.

#### Application

Cut the Deckweb for required length and width. Apply a coat of the liquid applied coating where Deckweb needs to be installed. Install Deckweb on the wet coat avoiding any air entrapment and allowing it to dry completely. Apply second coat of the liquid applied coating and allow it to dry.

### STORAGE

Deckweb should be kept in a dry, clean store in the original unopened packing.

### DISPOSAL

Disposal of empty packaging should be in accordance with local waste disposal authority regulations.

For further information please refer to the Material Safety Data Sheet.

### CONDITIONS OF SALE

Sold subject to the Company's conditions of sale which are available on request.

### NOTE

The information supplied in this datasheet is based upon extensive experience and is given in good faith in order to help you. Our Company policy is one of continuous Research and Development; we therefore reserve the right to update this information at any time without prior notice. We also guarantee the consistent high quality of our products. However, as we have no control over site conditions or the execution of the work, we accept no liability for any loss or damage which may arise as a result thereof.
