

UNDER TILE & STONE PRIMER

Water Based Under Tile & Stone Primer to Prevent Efflorescence

DESCRIPTION

UNDER TILE & STONE PRIMER is a water based primer designed as a barrier to prevent water, alkali and other compounds from reaching the surface and to avoid efflorescence that can cause surface discolouration especially in cement substrates, stones and porous tiles. So the primer acts as an excellent efflorescence resistant.

UNDER TILE & STONE PRIMER forms a strong cohesive film that also provide chemical barrier to the migrating alkali and other chemicals.

USES

UNDER TILE & STONE PRIMER can be used for natural stones and tiles in interior & exterior situations such as:

- Walls
- Floors
- Kitchens
- Bathrooms

FEATURES

- Can be primed on concrete surface before painting or laying of tiles to prevent efflorescence and to provide water resistance surface
- Allows moisture vapour transmission
- Water based primer
- Prevent surface discolouration
- Uniform, strong cohesive film
- Efficient barrier against migrating alkali & minerals

VOC Content 18.06 g/l

COVERAGE ESTIMATES

Pack size	Coverage
500 ml & 5 Litres	approx. 10 - 15m ² /litre/coat depending on porosity

INSTRUCTIONS FOR USE

- Ensure the surface is clean where the Primer is to be applied and also free from loose particles.
- Apply neatly the primer on the backside of the Tile/Stone using a soft bristle brush. Leave it to soak for 5 minutes and wipe any excess primer remaining on the Tile / Stone.
- Allow 30 minutes of drying time between coats. Apply one or more coat as necessary depending on the porosity of the Tile/Stone.
- UNDER TILE & STONE PRIMER can also be applied on concrete/cement plastered surfaces as a primer.
- Allow it to dry for 12 hours before laying the tile/stone.

LIMITATION

- Suppresses efflorescence to a large extent however when conditions are extreme the sealer may allow some efflorescence formation.
- Do not use sealer in damp condition.

STORAGE AND SHELF LIFE

UNDER TILE & STONE PRIMER has a shelf life of 12 months in original unopened container. Store in dry conditions between 5°C and 30°C, protect from direct sunlight.

PRECAUTIONS

Keep out of reach of children. Wear suitable protective clothing, gloves and eyes/face protection. After contact with skin, wash immediately with plenty of clean water. In case of contact with eyes rinse immediately with plenty of clean water and seek medical advice.

DISPOSAL/SPILLAGE

Spillage of any of the UNDER TILE & STONE PRIMER product should be removed with plenty of water. Disposal of such material or empty packaging should be in accordance with local waste disposal authority regulations.

For further information please refer to the Material Safety Data Sheet.

CONDITIONS OF SALE

Sold subject to the Company's conditions of sale which are available on request.

NOTE

The information supplied in this datasheet is based upon extensive experience and is given in good faith in order to help you. Our Company policy is one of continuous Research and Development; we therefore reserve the right to update this information at any time without prior notice. We also guarantee the consistent high quality of our products; however as we have no control over site conditions or the execution of the work, we accept no liability for any loss or damage which may arise as a result thereof.
